TEACHER FEATURE

MRS. BULLOCK

This month, the Tornado Whirl teacher of the month is Mrs. Bullock! She was nominated by Luis Lopez.

According to Luis: "Mrs. Bullock is a very helpful and understanding person. She takes time out of her day to come in before school or stay after school to help in anyway she can. She helped as much as she could and prepared me, allowing me to pass my AICE test." Luis also mentioned that Mrs. Bullock is very inspiring to him, as she is to many others.

Mrs. Bullock is there when you need her and willing to do just about anything for anyone. Her outgoing personality is encouraging to students because they always know she is willing to support you, even outside of school.

For these reasons, Mrs. Bullock has been chosen as the Tornado Whirl teacher of the month. Thank you for all you do Mrs Bullock!

your inside scoop on all things bay high

MESSAGE FROM MR. MAY

Our job at Bay High School is to prepare our students for tomorrow. The careers our students choose have probably not even been invented yet. Video games, the internet, wireless communication are all examples of industry that was not around when I was a student at Bay High.

So we focus on skills that will get our kids ready to be flexible problem-solving, relationship building, workers who always strive to learn more. Bay High Graduates will be ready for anything and willing to take on everything.

Our academics are, of course, a large part of this focus. However, our comprehensive high school offers many programs, sports, and clubs to prick the interest of our students. But their purpose is much more involved than what kids want. Clubs, sports, band, choir, drama, and community service are also vehicles to teach our kids more than readin', writin', and 'rithmetic. It allows our students to perfect those qualities that will serve them well in the coming years.

So get involved. Work hard. Play hard. And never, ever grow tired of learning.
